

C₂ REM

COORDINATION, CLIENT REPRESENTATION AND ENVIRONMENTAL MANAGEMENT

December 3, 1997

Mr. David Rabbino
U.S. EPA - Region IX
75 Hawthorne Street
San Francisco, CA 94105

Project No. 95-103

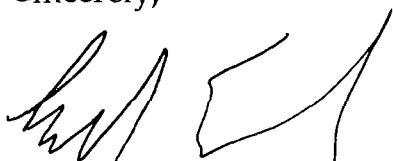

Memorandum
EPA's Request for Information
Omega Chemical Site

Pursuant to your request to Judith Praitis and in your letter dated November 21, 1997, C₂ REM had forwarded the raw data relating to the groundwater samples from Technical Memorandum No. 11A (analytical results and boring logs) to you on November 20, 1997. All other raw data is included in the *Phase II Close Out Report* prepared by England & Associates (dated October 1, 1996).

In regards to your other requests; 1) the *Quality Assurance Plan (QAP)* is attached to the *Phase II Workplan* prepared by England & Associates/Hargis & Associates (dated October 27, 1995) and; 2) the *Addendum No. 1; Quality Assurance Program* is located following the *Technical Response after Technical Memorandum No. 9* in the *Phase II Close Out Report, Volume 1*. Both of these document were previously submitted to EPA.

Should you require assistance in finding or obtaining these documents or should have any questions or comments, please call me at 714-261-8098.

Sincerely,

Edmond F. Bourke
OPOG Project Coordinator
